EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephen C. Bishop (registration no. 38,829) on August 16, 2006.

2. The application has been amended as follows:

Cancel claim 27

Please amend claim 26 as follows:

26. (Currently Amended) A computer memory containing a compound browsing data structure comprising:

a plurality of browse graphs, each browse graph comprising a plurality of relations used to access a body of subject data, wherein the plurality of relations is different in each of the plurality of browse graphs, such that the subject data may be accessed using any one of the plurality of browse ~~graphs~~ graphs; and

wherein the compound browsing data structure further comprises a plurality of data portions collectively constituting the subject data, and wherein each of the browse graphs specify a location in the browse graph for each of the plurality of data portions.

3. The following is an examiner's statement of reasons for allowance: Applicants submission of a terminal disclaimer overcomes the obviousness-type double patenting rejection. Applicant's amendment and remarks overcomes the rejection citing Mangat et al. under 35 USC 102(b). The prior art of record fails to teach a browse graph having different node structures. Also, claim 27 has been incorporated into the limitations of independent claim 26 because the prior art fails of record fails to disclose the limitation of a compound browsing data structure further comprises a plurality of data portions collectively constituting the subject data, and wherein each of the browse graphs specify a location in the browse graph for each of the plurality of data portions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
